SUNMED

# Advantage

- Standardization: Precisely tailored from BIM, in line of international standard and size.
- Quick construction: 4 to 6 days to install one OR.
- Modularization: High completion, modular designed. Each module is fully functional upon leaving factory to ensure zero further assembling at site.
- Flexibility : Can be easily removed without getting damaged in case the OR need to be relocated.
- Upgradeable: Modular panels can be easily replaced or upgraded.
- Easily- regulated: SOP of installation made easy for non-professionals.
- High-quality: machine processed, free of further process by construction personnel
- Diversity: multiple options for material as well as color

## Cases

# Fully automatic air-tight OR door:

- Multiple color options
- High-density polyurethane structure and aluminum profile
- HPL board & painted stainless steel
- Options for trigger: Manual and automatic
- Asepsi Solid Mineral surface
- Options for coating: Transparent and glass coating
- Anti-radiation device available for doors
- Options for opening mechanism: Slide and bi-fold

## Wall: antibacterial & radiation-proof

- Adopts self-standing metal structure, able to be embedded by various air-tight doors, and in-wall accessories such as monitor, air-processing unit, central information panel, clock etc.
- Multiple color options
- Smooth surface and corners.
- Fireproof grade: EI60 class
- Full-height, seamless, free of bacteria incubation.
- 2mm lead-built x-ray shield

The logo for SUNMED, featuring the word "SUNMED" in a stylized, blue, sans-serif font. The letters are bold and modern, with a slight gap between the 'S' and 'U'.

VISION SUNMED develops and markets high-quality table & light for the Operation Room, color doppler ultrasound system for accounts, modular OT & integrated OR for hospitals, try to provide state-of-the-art support for doctors and patients. SUNMED is located in Beijing, China-just 30 minutes commute from Beijing International Airport. We operate a 12,000 sq. ft. office & manufacturing facility. We leverage our expertise in engineering, operations, market trends and evidence-based knowledge to provide our customers with the best solutions. Time to Update, Better to Choose SUNMED!
